

ENVIRONMENTAL POLICY STATEMENT

Stowen is committed to providing products and service relating to its business activities in the Provision of onshore management, manufacture, maintenance, repair, inspection, alternative access services and logistical support for the onshore and offshore environments, to meet our customers' requirements and expectations in a manner that ensures a safe and healthy workplace for our employees and minimises our potential impact on the environment.

We will work in compliance with all relevant environmental legislation, and we will strive to use pollution prevention, and environmental best practices in all we do.

This policy has been reviewed and endorsed by the Managing Director who has overall responsibility for its communication and implementation to all its employees, contractors, visitors and interested parties.

We will establish clearly defined environmental objectives, that are achievable and measurable, and these objectives will be reviewed at least on a three-monthly basis to ensure that the objectives are being met, or that sufficient processes are in place to enable them to be met.

The objectives will focus on limiting the amount of natural resources that we consume, including electricity, water, raw material, and reducing or eliminating pollution, and where possible, we will use recyclable materials. Stowen Top Management is committed to providing sufficient resources to enable us to meet our environmental objectives.

Stowen has implemented an Environmental Management System which clearly states the methods it will use to achieve its objectives; this management system follows guidance given in the standard ISO 14001:2015.

Stowen will aim to continually improve its environmental performance, and limit its Environmental Impact, and regularly review the Environmental Management System to ensure its continuing suitability.

This policy will be communicated to all Stowen employees and other interested parties, and be freely available to the public, it will also be displayed on the Stowen Group Website.

Implementation of the Environmental Management System will be the responsibility of all Stowen personnel, and persons working on its behalf. Top Management will ensure that sufficient training and communication is also made available

Signed:  _____

Position: Managing Director
